

Dyson Corporation Acquires Accu-Tech Manufacturing & Support Corp. of Mentor, Ohio

Specialty Fastener and Forging Company expands capabilities with acquisition

Dyson Corporation (portfolio company of Tulcan Management), a Specialty Fastener and Forging company in business since 1884, expands their manufacturing capacity and capabilities through the acquisition of the business assets of Accu-Tech Manufacturing & Support Corporation, located at 8875 East Avenue in Mentor, Ohio.

Accu-Tech has operated as a high-precision machine shop in Lake County, Ohio, for the last 25 years, primarily selling into the specialty valve and tooling industries. Dyson plans to continue operations at the Accu-Tech facility through the remainder of 2020, when it will combine the assets and employees with the Dyson Corp. operations located in the same Ohio county. All equipment and employees of Accu-Tech are expected to remain with the combined company after the transition.

“With the increased capacity this equipment will provide, Dyson will be able to increase throughput, improve our tooling availability, and optimally improve our on-time deliveries to our valued customers,” said Tom Plisko, General Manager of Dyson Corp. “This acquisition is a very positive step in the direction we intend to take in order to continue the growth of our business in 2020 and beyond.”

About Dyson Corporation: Founded in 1884 as a specialty forge shop in Cleveland, OH, Dyson has grown to become a leading supplier of specialty fasteners and forgings ranging in size from 1/2 to 10,000 lbs. and diameters up to 20”. The critical fasteners they produce are used primarily by the Military, Infrastructure, Construction, and Renewable Energy industries, and are produced to ASME, MIL, ANSI, SAE, and DIN standards. Dyson is an ISO 9001:2015 certified manufacturer. To learn more about Dyson, please visit: www.dysoncorp.com.
