

Elgin Fastener Group (EFG) Acquires Rockford Fastener

Elgin Fastener Group (EFG) is pleased to announce it has acquired Rockford Fastener, a manufacturer of specialty fasteners known for offering excellent turnaround times, quality and customer responsiveness.

“The combination of Rockford and EFG creates an exciting opportunity for our company, for our customers, and for our shareholders,” said Brian Nadel, EFG CEO. “The synergies from this move support our core markets and deepen our reach into key distribution channels.”

Rockford Fastener is well known for delivering quality products across several product categories over their 40-year history. Product diameters range from #4 to ½” and lengths up to 5”. Markets served include agriculture, transportation, commercial construction, and general industrial end-markets. Unique to Rockford is their ability to rapidly quote fasteners and even begin production within a 24-hour window for rush jobs.

“Partnering with Rockford emphasizes our focus on distribution and strengthens our core product offering into that channel,” states Joe Shoemaker, VP of Business Development for EFG. “The quality of the organization, and the people, was apparent when meeting with owners Nic and Matt Orman. We are tremendously excited for what this move means for our distribution customers and our ability to serve them more broadly.”

Nic Orman, from Rockford Fastener said, “My brother Matt and I are excited, for ourselves and our employees, about being part of an organization that will carry Rockford Fastener and the legacy we have all strived to achieve forward.”

Rockford Fastener joins a group of well-known product brands under EFG including Holbrook Manufacturing, Leland Powell, Northern Wire, Quality Bolt, Chandler Products, Telefast and Ohio Rod Products.

EFG is the leading dedicated specialty fastener provider in the US. We offer the largest selection of specialty fasteners, wire forms and licensed products through eight highly regarded product brands. Our blended sourcing model supports large volume production runs while offering local support, quality control and manufacturing capabilities offsetting demand spikes. Our network of industry-leading customer and channel partners benefit from our ability to deliver over 1.3 billion parts annually across hundreds of product categories, configurations and 14 licensed product types.
