

Invest in Your Professional Development at the International Fastener Expo

The Fastener Training Institute is proud to present the Fastener Technology Workshop, Tuesday, October 30, in conjunction with the International Fastener Expo. This seminar will be a fact-and-fun-filled day with Bengt Blendulf, one of the most experienced and dynamic fastener instructors in the U.S. and Europe.

Using Bengt's fastening technology manual, this seminar will focus on the practical aspects of working in the fastener industry. You'll learn how to respond to technical questions from engineers and technicians and how to find the appropriate answers.

Subjects covered include:

- Product standards and materials
- Heat treatment
- Thread types and selection criteria
- Corrosion and prevention/protection
- Quality issues
- Vibration loosening and locking technologies
- Tightening tools and methods

Session Fee:

\$399 until September 18

\$499 starting September 19 until show time
