

Fastener Fair USA Postponed to November 2021

Fastener Fair USA, the only exhibition in the United States dedicated to the full fastener supply chain, announced the decision to postpone the show scheduled for June 22-24, 2021.

The event has been rescheduled for November 8-10, 2021 (Conference: November 8 | Expo Hall: November 9-10) at the Huntington Convention Center of Cleveland, Ohio.

“After extensive consultation and ongoing monitoring of the COVID-19 pandemic, we have made this decision with the wellbeing of all our customers and partners as our highest priority,” said Marie Brown, Group Vice President, Reed Exhibitions. “We are developing additional channels and digital tools to complement the live event in order to serve the industry, support our loyal exhibitors, and to ensure our attendees have access to find the solutions they need.”

Fastener Fair USA covers all areas of the fastener industry and provides real insight into industry trends and key information about the latest developments in this sector. The exhibition is the international platform for manufacturers, wholesalers, distributors, and suppliers of fastener and fixing technology.

Additionally, Fastener Fair USA launched Connector365 in May of 2020. Connector365 is a year-round online platform, a repository of thought-leadership, and industry expertise. The platform can be used to search the show directory of leading suppliers, stay up to date on fastener industry news, and hear the latest from our industry partners.

“In the coming months, Fastener Fair USA will feature more 365 digital promotional opportunities and a significantly enhanced Connector365 platform for attendees and industry professionals,” said Bob Chiricosta, Event Director, Fastener Fair USA.

Fastener Fair USA is held in Cleveland, Ohio, one of the largest manufacturing hubs in North America. Combining a comprehensive display of industry innovation with technical conference sessions, demonstrations, and opportunities to connect with peers and industry experts.
