About IFI

Industrial Fasteners Institute, headquartered in Independence, Ohio, is an Association of the leading North American manufacturers of bolts, nuts, screws, rivets, pins, washers, and a myriad of custom formed parts. Suppliers of materials, machinery, equipment and engineered services, are Associate Members of the Institute. IFI membership currently stands at 70 Company Members and 56 Associate Members.

For more than 85 years, IFI's fastener manufacturing member companies have combined their skills and knowledge to advance the technology and application engineering of fasteners and formed parts through planned programs of research and education. Users of fasteners and formed parts in all industries benefit from the continuing design, manufacturing, and application advances made by the Industrial Fasteners Institute membership.
