

Looking Past the Fear and the Noise: 2020-2022

NFDA Webinar: May 14, 2020, 11 a.m. – 12:30 p.m. Eastern; 8 – 9:30 a.m. Pacific

Never has it been more critical for company leaders and key decision makers to have a clear, impartial, and data-driven perspective of how factors such as COVID-19 and oil price volatility will impact our economic future, and what they should be thinking about in preparation for that future. ITR Economics will help you see what the future holds as you move through the depths of this black swan period and seek the resumption of something approaching normal.

In this webinar presented by Brian Beaulieu of ITR Economics we will:

- Examine the probable timeline for when the economy can move past first the COVID-19 black swan and then the oil price black swan.
- Present the outlook for the market segments most important to your industry.
- Access interest rate and stock market trends for the purpose of understanding what they mean for our businesses

Pricing:

- NFDA Members and Sponsoring Association Members: \$49 Company Registration*
- Nonmembers: \$149 Company Registration*

*You will be given a link that you are welcome to share with others in your company, even if they are at different locations.

Bonus Roundtable Discussions:

Join us 30 minutes after the close of the webinar for small group roundtable discussions to share your thoughts and ideas about the impact of COVID-19 on your business and the world economy. Details on these sessions will be provided after you register.

Register at www.nfda-fastener.org.

Members of the following sponsoring associations will be given a discount coupon code, which can be used on the online registration form to get the member discount. Contact your association management for the discount code.
